Public Hearing Disclaimer:
 This map has been designed as a tool to be used in determining the order of speakers at the public hearing and is based on the best information available to the Louisiana Department of Environmental Quality GIS Center at this time. The 2-mile radius circle was drawn around a point which approximates the center of the facility site. It is recognized that the shape and the exact location of the 2-mile radius circle may slightly differ if property boundaries had been followed, as indicated by showing the center of the facility. This map is only a guide to help speakers determine their location or relation to the facility.

LDEQ Disclaimer:
 The Louisiana Department of Environmental Quality (LDEQ) has made every reasonable effort to ensure quality and accuracy in producing this map or data set. Nevertheless, the user should be aware that the information on which it is based may have come from any of a variety of sources, which are of varying degrees of accuracy. Therefore, LDEQ cannot guarantee the accuracy of the map or data set, and does not accept any responsibility for the consequences of its use.

Public Hearing Disclaimer
 This map has been designed as a tool to be used in determining the order of speakers at the public hearing and is based on the best information available to the Louisiana Department of Environmental Quality's GIS Center at this time. The 2-mile radius circle was drawn around a point which approximates the center of the facility. It is recognized that the shape and the exact location of the 2-mile radius would vary slightly if property boundaries had been followed, as opposed to choosing the center of the facility. Again, this map is strictly a tool to help speakers determine their location in relation to the facility.
